RE: 2018 Certified Backflow Tester List

The Ramona Municipal Water District requires an annual fee to be charged for vendors listed on the District's Certified Backflow Tester List. Backflow testing firms that desire to be included on the District's list must pay an annual listing fee of \$20.00, due and payable by January 1 each year. The District's list will be updated annually.

To test backflow assemblies within the Ramona Municipal Water District, each tester must submit the following, along with this form and the \$20 fee:

- A) Backflow Tester Certificate (ABPA or AWWA)
- B) Gauge Calibration Certificate

Expiration of either of these documents will result in removal from the tester list. Current tester and gauge calibration certificates must be on file to remain on the list.

Improper testing procedures, repairs or reporting, including incomplete test forms, or failure to pay the \$20.00 listing fee, will result in removal from the tester list. It is the tester's responsibility to submit only complete test forms. Incomplete test forms will be returned to the tester. All installations must be no more than eighteen inches from the meter unless approved by the district and installed per district requirements.

Please provide your company information below, along with your \$20.00 check and copies of your current certifications. Return to me by 01/01/18 to be included on our 2018 Certified Backflow Tester List. Please contact me if you have any questions. Thank you.
