BUSINESS HOURS- MONDAY THRU FRIDAY
7:30 am – 4:00 pm
(760) 788-2200 or (760) 789-1330

**NOTIFICATION OF TEMPORARY
WATER SHUT DOWN
WEDNESDAY NIGHT JANUARY
9TH, 2019 UNTIL THURSDAY
JANUARY 10TH, 2019**

Dear Customer:

Your water service will be temporarily interrupted from 11:00 pm Wednesday night to 6:00 am Thursday morning, or until work is completed, weather permitting, due to the contractor needing to do pipeline upgrade. As a result, you may experience reduced pressure and possible air in your plumbing. This will only be temporary and will diminish as service is restored. Running your water at each tap after service is restored can relieve air.

Your service will be turned off and turned back on by District field personnel. It would be advisable to store water, if possible, prior to the shutdown for drinking purposes and for animal usage. Your toilet will have one flush only until service is resumed unless you have a container of extra water available. (Bathtubs work great). Also check your toilets once service is resumed to insure the float valve shuts off properly. We encourage you to refrain from attempting to use your water system during this time. You should make sure that any pressure pumps, water softeners or solar units are turned off.

We will work to restore your service as soon as possible and we will attempt to assist you in any way we can. Please direct any questions and or concerns to 789-1330.

Your patience during this shutdown is appreciated.
